

Bulletin 2021 108

October 26, 2020

TO ALL SCHOOLS:

As of the evening of October 26, IT will begin processing grades for marking period 1. In order to account for last week's delay in grade reporting, we cannot allow any manual grade changes to be made via A12 or B10 until we are done. The message "No grade changes allowed at this time" will appear on the bottom of the A12 and B10 panels until further notice. Should you see this message, please remember to set the grade change aside until we are done. You will be notified once the panels are ready to allow grade changes.

We thank you for your understanding in this matter and apologize for any inconvenience this may cause.
