TO ALL SCHOOLS:

Checking students' choice of eLearning in BASIS

Updated information is available in BASIS. As far as daily monitoring, the Program Participation grid in BASIS is updated each morning and has an indicator of student learning choice that you can use to pull a daily list:

The teacher class summary view will provide a real-time impact on your class schedules, breaking out the number of students who are scheduled to be in school vs staying home:

The screenshot shows the 'Teacher Class Summary' view in BASIS. It includes a 'Course/Section Filter' section with 'Year' (2021), 'School', 'Mark Period' (1), and 'Teacher' (All) dropdowns. The main table has columns for 'Teacher Number', 'Term', 'Period', 'Course Number', 'Course Section', 'Building Number', 'Room Number', 'Course Title', 'Number of Students', 'Students in Prog. Part.', 'Blended Course', 'Students In School', and 'Students At Home'. The 'Students In School' and 'Students At Home' columns are highlighted with a red box.
